

January 15, 2024

Name: Thokala Sarat Babu
EMP ID: 106729

Dear Thokala,

We would like to inform you that as per the revised computations, you are eligible for 535 stock options for vesting in the Trianz Employee Stock Option Plan for the performance year 2022. Of these eligible options, 374 (70%) have been vested as of January 15, 2024. These vested options are provided to you in recognition of your contributions to Trianz during 2022. The total Options vested as on date are 736 .

The Stock Option Plan states that 2021 stock option vesting would occur upon the Company's meeting 90% of its overall plan achievement. This target was not met this year, but the Board of Directors has made an exception to provide a percentage of vesting in recognition of the efforts made by our associates and the momentum we are experiencing across all levels in the organization. The remaining unvested options you have been awarded will be carried forward to subsequent years as outlined in the Stock Option Plan Agreement.

Thank you very much for all you do every day in supporting our clients, fellow associates, and leaders. Please reach out to me or your HRBP if you have any questions or need any further information.

Warm regards,

Sujit Sahoo
Vice President – Human Capital
